

Omar Millán

Junior QA Tester

(+52) 669 217 9643

Mazatlán Sinaloa, México

omarmillancazares30@gmail.com

PROFILE Experienced QA Tester proficient in manual and automated testing. Expert at identifying and resolving defects, ensuring software quality.

**PROFESSIONAL
EXPERIENCE**

ACUICULTEC SA DE CV

QA Tester | 2022 – PRESENT

My main mission is to write test cases, make documentation for errors, automation testing and sometimes UX/UI suggestions for improvement on the hardware/software.

ALAMO Rent a Car

Project Manager | 2018 – 2022

I worked as a Project Manager with the goal of creating a mobile app so users can book a car and drive it without requiring to go to an Alamo Office and instead the vehicle was a safe location like a mall or hotel parking lot where users can book it, drive it and leave it in another safe spot, it was like Uber but you could drive the vehicle.

My main mission was to contact with the developers, creators of the solution and making sure that they can fulfill Alamo standards and make the required changes so the experience for users in Mexico would be perfect without any issues, I had to manually install the required hardware, test the software (for clients and administrators) and also make tickets in Jira in order to track these ones until their fulfilment.

EDUCATION

Bachelor degree in Computer Science

Universidad Autonoma de Sinaloa | 2009 - 2013, Mazatlán Sinaloa, México
